“ *Dearest Aling Alma,*

*I just wished that when we last spoke last Mother's Day I went right ahead and visited you immediately and picked you up to go to my home in L.A. which you wanted to see ever since I bought it for my mom when she was still around.*

*I will never forget how close you and my mom were and how much you took care of my mom when she was sick. My mom always seemed to feel better whenever she learned that you will drop by her place and stay with her overnight or over the whole weekend or several days to keep her company. I will never forget Aling Alma.*

*I am happy in the thought that you and my mom have gotten to see each other again now. Until we all see each other again, this is farewell.*

*I send you peace, my love and millions of thanks and eternal gratitude, your friend forever ~Ed*
