

Anne Margaret Stein

March 8, 1966 - November 17, 2023

Anne Margaret Stein, born Anne Margaret Ross to Sheila Heather and John Moir Ross on March 8, 1966, passed away on November 17, 2023, due to complications from hypertensive cardiovascular disease.

Anne was known for her strong will and resilience, often charting her own path and living life on her own terms. She resided in the UK and worked as an accountant until 2009, when she moved to the United States to retire in sunny Palm Springs, California. Anne found great joy in playing golf under the California sun and could often be seen outside her home in Cathedral City enjoying her signature gin and tonic.

She is survived by her daughter Sarah, her stepchildren Joel and Tamara, her sister Barbara, and her brothers Michael, David, and William. She was preceded in death by her husband Hans and her parents, Sheila and John. Anne's resilience and independence will be remembered by all who knew her.

“ Anne was my mother.

I will never forget her creativity, her strong will, her love for her dogs. I will always remember that she taught me to cook, taught me how to clean, she taught me how to knit, how to sew and gave me lots of happy childhood memories I will treasure.

We lost touch with each other in 2013 but I always imagined she lived a wonderful life in Palm Springs playing her favorite sport.

Would love to hear any other happy memories people have of Anne. She could always give someone a fun evening.

“ Anne was my younger sister. We grew up together in Hertfordshire, England. We had a very happy childhood and spent many summers on the beach in Devon. I saw less of Anne once I went to university and our lives diverged. We caught up at family birthdays and she was always full of fun. Sadly, after Anne moved to America we had little contact but I understand she loved her golf. May she rest in peace.
