“ Good Evening Davis Family, We are so very sorry for your loss, but know that when someone you love dies, the positive to take from it is, your loved one is no longer in pain and suffering. My grandparents, parents and myself worked at our family business, which took care of your parents taxes, but as always, we enjoyed meeting people and getting to know them over the years. I know your family, friends and faith will see you through this difficult time. Mike, we personally may not have had classes or socialized, but we managed to graduate from Palm Springs High School (Class Of 84). If we had to go to school now, I don't know if we would graduate ?

“Dad I know I never got to give you a big hug or kiss your cheek. I did get to know you through your son whom talked so highly of the man you are. I will miss you and never forget what you would always say to me when we did talk. You always gave straight forward advice. I know this life may be over for you now but I do know your in a better place now with all our lost loved ones .I have a lot of loved ones getting to meet you now, losing a loved one isn't easy and it never will. I will take and use the wise words you spoke and use them in my life that's how I will honor you. You were a great teacher, and much much more then that. I know your watching us all and I know your with us each and every day how I know this is because the love you showed each of us differently is the love we got blessed with to have with us the rest of our lives. Fly high dad and feel freedom dad. I love you and will always miss you as I did before you passed. God is walking with us for you. Love you Dad. Always and forever.
